

*****A Dangerous World*****

I, like many of you, have heard the messages of the end times since my childhood. Many times I have left a church service where the message was preached, looking to the sky for the imminent return of Christ. The frequency of such expectation has caused some to sour on the message. Some are down right hostile to it (II Peter 3:3-5). No matter the doubters and scoffers, "the day of the Lord WILL come..." (II Peter 3:10, emphasis mine). Many will ask, why now? Why is this time different? Answer: NO people have ever populated this planet when the technology prophesied and needed to fulfill it existed, till now. Now, it is possible for anti-christ to give everyone a number and completely control commerce world wide (Rev.13:16-17). Now we can understand how the entire world can view the bodies of the two witnesses lying in the streets of Jerusalem (Rev.11:9).

As I write today, Israel and Iran are on the verge of an all out, shooting war. Ezekiel 38 predicted it would take place in the "latter days", and would involve many nations (vs.8,16). Chapter 39 makes it clear, the war will be nuclear (vs.5-16). Israel must take action soon, given the IAEA announcement Iran has a nuclear warhead and a delivery system for it. Coupled with this development is the surrounding of Israel by the radical Muslim element (See last commentary). That was called "Arab Spring", which would be more apply called "The World's Nuclear Winter". We have a dangerous world.

Turn your attention to Europe and it's economic chaos, you see the inevitable conflict between Europe's Elite (Bilderbergers & Royal Houses) and average citizens. Europe's elites have promoted the United States of Europe and the Euro, for the most part, against the will of their respective citizens. In all the chaos surrounding Greece, and others, now Italy, they have pressed to preserve their financial interests at the expense of the general public. This push is fueled by fear of nationalism that led the nations to war. It is beginning to unravel into violence which will lead to a strongman leader, who consolidates the factions under a tenuous coalition for a short time (Dan.7:7-8).

We have the same spirit driving the Occupy movements in the U.S. They are the "useful idiots" the elites must have to bring their agenda to fruition. Those elites have planned and schemed for decades to have the North American Federation, from Mexico to Canada. They see it close to coming to be. Of course, like Europe's Elites, their enemy here is nationalism. What most of us call PATRIOTISM, they, from Barack Hussein Obama to George Soros, and many others, many unknown to public eye, see as a barrier to their utopia. They do not care at all for the public which is to be controled and ruled over. Their wealth and power must be protected above all else. A strong, super power United States, must be brought down in order to pull it all together. But make no mistake, they will stop at nothing to have their way. Our U.S. Constitution is an impediment,

SO, Supreme Court Justices and Federal Court Judges, must be appointed that will ignore the Constitution and see it the way the elites do.

When elected officials will lie to the electorate, saying anything to get elected and THEN govern against the will of the people. When they ignore the Constitution, inventing things it obviously does not say. When they ignore what it obviously DOES say. When the Executive Branch (i.e. President and appointees) will not govern by the Constitution. When the courts will not rule by and uphold the Constitution, the public has little recourse. This will guarantee revolution and violence, which will give a pretense for martial law and the suspension of civil liberties.

It's coming folks. These are some of the reasons our leaders will not stem illegal immigration and are no longer willing to aggressively go after the full terrorist movements. Chaos and fear are their ally, for the general public will cry for protection and provision, and surrender civil liberties. George W. Bush stated the right policy after 9/11 but quickly retreated from it. That if you aid, support, finance or give sanctuary to terrorists, you are as guilty as the terrorists and you are an enemy of the United States. But there are too many common interests world wide, interlocking with nations, to follow through with this policy. Not the least of these interests is MONEY. These elitists have no loyalty to country, only finance and power. The people restraining their plan must be swept away by any means necessary. If propaganda and smear cannot sufficiently destroy the influence of patriots, then harsher means will be used.

These are just some of the reasons ours is a very dangerous world today. "And when these things begin to come to pass, then look up, and lift up your heads, for your redemption draweth nigh" (Lk. 21:28). A dangerous world? Oh yes, but the elites are in for an enormous surprise from the Lord of Glory! But we have a lot to endure before then. For warned, is for armed.
