

## AMERICANS AWAKENING?

The tragedy at Ft. Hood begs a serious answer to a serious question. When are Americans going to quit ignoring the threat of Islam to our liberty? Moments of silence in the Congress will not suffice for heartbroken families whose loved ones were murdered by another "brave" (puke) Muslim soldier. This piece of hog flesh talked so much about how Muslims should fight us. Of course, the attackers always "bravely" attack unarmed, defenseless people, usually women and children.

Let me say it clearly. Islam is not, never has been and never will be, a PEACEFUL RELIGION!!!! Their goal is to conquer the USA by conversion, if possible, or kill us if not. Former President Bush's affirmation of Islam and President Barak Hussein Obama's love of Islam, NOT WITHSTANDING, we are in a war with Islam. Are there Muslims who just want to practice their religion and be left alone? You bet, but that changes nothing. We must stop these fanatics while we can. What is needed is some lard coated bullets and this particular piece of swine flesh's body, and others, should be rubbed down with lard so they cannot enter their god's great whorehouse in the afterlife and thus be denied their 72 virgins.

Meanwhile, we pray for the victim's families, our military on the front lines in Afghanistan and Iraq. We pray also for the limiting to one term of our Muslim loving President! Between now and 2012, let us work as hard as we can to blunt the agenda of this President.

The "Stand Up For America Rally", held here, Monday Night, Nov 2nd, was tremendously successful. Our security team reported over 700 in attendance. Four state representatives attended, and ministers across denominational and ethnic lines were on the program. The rally began with film footage of the attacks on 9/11 and flowed for two hours. Spiritual songs and a presentation of "God Bless The USA" by Dance Reflections brought the crowd to their feet several times. Area pastors prayed over the great issues facing our nation. Bishop Harry Jackson of Hope Christian Church in Washington urged all of us, black church, white church, republicans and democrats, to work together on social and moral issues.

The rally, which was just the beginning of a grass roots movement in our area of businessmen and clergy, set us off toward being a voice to heard now and especially in the 2010 elections. We plan to retire some politicians and hire some new ones who will represent righteousness. Starting in Kings Mountain, Cleveland and Gaston Counties and then, the state and nation.

Our Youth Pastor, Mark Shuler and I were in D.C. Thursday, Nov 5th, for the health care rally on the capital steps. All the media, including Fox, have drastically under reported this event. The crowd could have easily been 50 thousand. Most, if not all 50 states were represented.

It seems every Republican Congress person spoke. Afterward, all the house office buildings were packed with protesters. Lines 5-6 persons wide filled the steps, wrapped around all the buildings on each side and filled the sidewalks the full length of the street on the east side of the capital. We were there to meet with Congressman Patrick McHenry's staff and could not get in for the crowd. Though I have seen no film footage on any network which captures the enormity of the crowd, we had our cameras there and we will show it.

One thing is for sure. Many Americans are waking up. They are mad, motivated and engaged to take back this country from a Marxist President and his Marxist cronies, including Obama's Prime Minister, George Soros. Soros is the money and power broker beyond the scenes, while Rahm Emmanuel is the muscle. The question for lovers of liberty is, is it too little, too late? We'd better pray it isn't! What are you going to do? Talk, throw things at your t.v., or get off the couch and get involved?
