

### **\*\*\*DESPICABLE\*\*\***

That is hardly a harsh enough word to describe what we observed in Washington D.C. over the week-end past. A President that is such a liar, I'm amazed anyone can now take him seriously. Democrat Senators and Congressmen who must have come off their medication long ago and Republicans who are spineless and duplicitous. It has become glaringly obvious that we have need of a totally fresh party to take charge, if we have any hope of saving our nation. How can anyone feel good about a \$38.5 billion cut in the federal budget when the same week spending increased over \$52 billion? Only in the madness that permeates Washington can this be celebrated by the Rs and wept over as draconian by the Ds.

Consider these numbers. Home mortgage losses since the government takeover \$153 billion, with losses expected to be \$363 billion by 2013 (Bloomberg News). Freddie Mac and Fannie Mae chief executives' reward for bankrupting those entities; \$17 million and top executives another \$35.4 million of our money (NY Times). G.M. taxpayer benefits, \$84 billion (Washington Times). Oh, remember that great bailout of our economy that just had to be appropriated immediately or the American citizens would experience financial disaster? Well, Fed Chairman Bernanke has fought the Freedom of Information request for 2 years to keep you from knowing that 73 loans of that money went to foreign banks. Arab Banking Corp (Central Bank of Libya), got \$35 billion of your money. Dexia SA based in Brussels and Paris got \$33.5 billion. Dublin based Depfa Bank Plc. got \$24.5 billion. During one week of October, 2008 70% of the \$110.7 billion borrowed money went to foreign banks (Bloomberg News).

Now I flunked math, but using my little calculator I ciphered that comes to about \$330,052,400,000.00. Will some adult PLEASE stand up in D.C. AND GET SERIOUS!! We are watching the destruction of the "land of free". Are we really to believe with all the fraud and waste in the government we can't SUBSTANTIANTLY reduce this nation's debt?

According to Chuck Messner, if you think of dollars as seconds, you can better comprehend our situation. A million seconds is 12 days. A billion seconds is 32 years. A trillion seconds is 32,000 years and we are approaching \$15 trillion of debt. This while our illustrious pols are saying \$38.5 billion is all they can cut. We're doomed with this moron marathon controlling the nation's spending.

Over the years, I've become convinced the United States is not in bible prophecy. I can not find us any where in any scripture that can be unequivocally demonstrated to be the United States. That has always meant to me we would 1, be nuked and destroyed, 2, become so weak we are unable to wield any measurable influence in the world, or 3, become totally taken over by anti-christ and his regime. But it is still sad to see the destruction coming

through the sheer incompetence and stupidity of those we elect to represent us.

How easily we have forgotten or ignored "The wicked shall be turned into hell, and ALL NATIONS THAT FORGET GOD (Ps. 9:17, emphasis mine).

"Righteousness exalts a nation, but sin is a reproach to any people" (Prov. 14:34).

Our politicians ignore and turn their back on God and His Word, and seem hell bent on making America a pagan society that has affections for Islam rather than the God of our founding. But let you and me never forget "When the righteous are in authority, the people rejoice: but when the wicked bear rule, the people mourn" (Pro. 29:2). My and your task is to identify those in D.C. (few they may be) who are trying to do right and help them with prayer and support. Then identify others that will do right, if elected, and do the same for them.

Folks, WE ARE RUNNING OUT OF TIME!!! What we have is despicable, but we can still change it IF WE HAVE THE WILL! Do you?
