

*****THE COMING ISLAMIC TSUNAMI*****

Ours is an increasingly dangerous world and yet too few seem to be alarmed enough to go beyond talk. For many, even talking about it seems too much to tolerate. But at the risk of sounding like Johnny One Note, I'll sing out again.

The "Arab Spring" so loudly praised by our clueless U.S. Administration is becoming a tidal wave which looks inevitably destined to flow over the "land of the free and home of the brave".

The revolutions in the Middle East do not bode well for us (U.S.). Egypt, Imans have warned Christians their churches will be burned and the pastors killed if they do anything to dishonor Islam. Of course this means preaching the gospel.

Radicals are in control of what once was an ally. Libya's new revolutionary leaders have declared their government will uphold Islamic laws and sharia will be the basis of legislation (MSNBC 10/24/11).

The Islamic group just won the election in previously liberal Tunisia. Yemen and Syria are in turmoil, Pakistan is radical, Afghanistan, Turkey are turning more radical monthly and of course, Iran. The entire region is going radical Islamic, the Palestinian State, influenced by Hamas and Hezbollah, also in Lebanon. The lone little democracy of Israel is being surrounded, and those surrounding her have designs of her destruction first and then, we are next.

What fools we are, believing we can play nicey with this enemy and just get along. They want us worshipping Allah or dead. Europe will be Muslim in a few short decades. It cannot be stopped. Our Marxist President and his administration are systematically assisting Islam's ousting of Christianity from American Society. The U.S. taxpayer has poured \$440 billion to support Afghanistan's new government. Result? Not a single Christian Church remains in that country (CNS news). Our soldiers and citizens in these Muslim countries cannot publicly display a Bible, cross or anything related to Christianity. A Colombian soccer player was detained by Saudi Moral Police as he walked in a mall. His crime? He had a Jesus tattoo (Fox News).

Oh well, you say, that's over there. Right! How about the Hutton Hotel in Nashville, TN canceling "Preserving Freedom Conference", scheduled for Nov. 11th, dealing with sharia laws and Islamic influence. They were pressured by Islamic groups. Hyatt Place, Sugar Land, TX. canceled a similar event under pressure from C.A.I.R. Or the Maryland Democrat state lawmaker pressuring an Annapolis hotel to cancel a similar event.

Then there is the American courts now accepting the influence of sharia law in adjudicating cases. I.E., St Petersburg, FL judge determined to use sharia in settling his case. Higher courts have refused to prevent him from doing so. Open your eyes folks. Your Christian faith is being kicked to the curb everyday. The Church of Jesus Christ from coast to coast is barely emitting a whimper about it.

A number of years back a slogan became prominent that has never been more true than today. The slogan? "A WORLD IN CRISIS NEEDS A CHURCH IN REVIVAL". But the church is not in revival, unless you mean a revival of spiritual sleep. There are a few voices crying out, but not enough and too many have ears to hear, but will not hear.

Well, ready or not, the Islamic Tsunami IS coming and is being welcomed by our government, media, academia etc, and funded by George Soros types. Why do they do this? Because they are for anything that will destroy this country's super power status and kick Christianity out of public influence. The silence of the church and the unwillingness of so many to take on America's first black President, is like feeding the gator hoping he'll eat you last. Your silence and complicity will not save you. Only an insatiable hunger for truth and the Holy Spirit is a shelter from the gathering storm. A strong backbone to stand against this tsunami is needed and only God can give us this. But we have to want it!
